(54) Title: **NAVIGATION DEVICE HAVING DIRECTION INDICATING LAMP**

(57) **Abstract:** Disclosed is a navigation device loaded in a vehicle to output vehicle navigation information corresponding to a signal received from GPS (Global Positioning System). The navigation device includes a body including a display for displaying the vehicle navigation information, and a controller for calculating a current location of the vehicle with respect to a previously set destination and outputting a turning direction instructing signal; and a pair of light emitting members installed to the body so that right and left are distinguishable, the pair of light emitting members selectively emitting light in correspondence to the turning direction instructing signal output from the controller.
